

FORTS BEING FORCED

CONSTANTINOPLE PEOPLE ARE PANIC STRICKEN

HISTORY'S BIG BATTLE

People Fleeing. Archives Moved to Asia-Minor in January. Fleet Will be in Constantinople March 15th.

London, March 1.—With the Anglo-French fleet fifteen miles inside the Dardanelles and British and French flags flying over six of the reduced Turkish works, the bombardment of the inner forts continues with unabated fury. Never before in history in any military operations on land or sea has there been such cannonade with the fury as that which wrecked the Turkish forts on the Asiatic and European sides of the Dardanelles.

CAT OUT OF THE BAG

Despite the efforts of the Turkish authorities to keep secret the success of the allies, it has become known in Constantinople and a panic is reported to reign there. Thousands of people are fleeing from the city. The Turks threaten to set fire to the capital if it falls into the hands of the allies.

HUNDREDS KILLED

Toulon, March 1.—Turkish prisoners captured in the Dardanelles and brought here on a French cruiser, declared today that the archives of the Ottoman government were removed to Asia Minor in January. They admitted that hundreds of their comrades had been killed by the Anglo-French fleet and express the belief that the fleet will reach Constantinople by March 15th.

BRITAIN PUTS AN EMBARGO ON FOOD

London, March 1.—The British government today proclaimed an embargo on food intended for Germany.

HARD WORK AHEAD

Strongest Forts of Dardanelles Yet to be Silenced

London, Feb. 28.—After having completed the destruction of forts at the entrance of the Dardanelles, the allied fleet of British and French warships, the greatest which has ever been in action, are now attacking the inner forts, which heretofore have stood between Turkey and invasion by the sea.

Apparently the outer forts could not withstand a great bombardment and when they had been leveled and deserted men were landed from the ships to complete the work of demolition, while mine sweepers cleared a passage in the straits.

More serious work is now ahead, for the all-important fortifications are at Kilid Bahr and Chanak, which guard the narrowest part of the straits. There is no doubt, however, that the allied commanders have instructions to make their way to Constantinople in spite of all obstacles and have been supplied with the best means of carrying out these orders.

FRENCH MARINES HOLD THE DACIA

FRANCE WILL REFUSE TO RECOGNIZE TRANSFER OF THE BOAT'S REGISTRY

Paris, March 1.—French marines were placed on board the American steamer Dacia at Brest today, to relieve for active duty the sailors of the cruiser that captured her. The information was given out by the ministry of marine today that France would refuse to recognize the legality of the transfer of the Dacia's registry. Definite announcement to this effect will not be made, however, until the sitting of the prize court at Brest this week.

HOLLAND CALLING IN HER SOLDIERS

OFFICERS ON FURLOUGH WILL JOIN THEIR REGIMENTS

The Hague, March 1.—All Dutch officers on furlough were today ordered to rejoin their regiments. This action was taken after a conference between the foreign minister and Queen Wilhelmina.

FIGHTING ABOUT TO ENTER ON A NEW PHASE

After Seven Months of War, Advantage is with the Allies

London, Feb. 28.—With Russian successes in the region of Przasnysz, North Poland and Kolomea, East Galicia; the successful progress of the operations of the allied fleet in the Dardanelles and the decision of the allied governments to stop all shipping to and from Germany, Austria and Turkey, the war, it is believed here, is about to enter upon a new phase.

While the success reported by Petrograd covers only a small portion of the long front in North Poland and the Germans have been able to record a counter success near Kolno, the general impression among military men in London is that the German offensive in the north has exhausted itself and the tide is turning in favor of the Russians, who with railways at their back, have been able to bring up more reinforcements than the invading army, whose communications, after German territory is left, must cross a country of marshes and overflowing rivers.

Much more fighting, however, must be waged before a final decision is reached.

GERMANY SAYS NO SUBS WERE LOST

IN UNDER SEA WARFARE, BUT ALLIES CLAIM OTHERWISE

Berlin, March 1.—Not a single German submarine has been lost in under-sea warfare against Great Britain and France was asserted by the admiralty today. Reports from French and British sources saying that from two to six have been destroyed since the blockade was ordered, are declared wholly untrue.

SHUTTING DOWN ON ALL NEUTRAL SHIPPING

Britain and Allies will Enforce a Strict Blockade

London, Feb. 28.—Great Britain, France and their allies have advised neutral countries that they hold themselves at liberty to stop all shipping to and from Germany and the countries of their allies.

Public announcement of the action will be made early this week. The text of the declaration will set forth that this decision is necessary because of German submarine attacks, but that Great Britain and France will respect the lives of crews and passengers in any steps they take.

SEEMS TO HAVE VENTED HIS SPITE

South Carolina Judge Gave a Blease Pardon a Double Sentence

Columbia, S. C., Feb. 28.—"Have you ever been pardoned or paroled by Governor Bleas?" was the substance of a question put by Judge Sease, holding court at Charleston, to William Freeman, convicted on two counts for housebreaking and larceny.

Freeman answered he had received clemency of some description, but he did not remember "exactly whether he was pardoned or paroled."

K. OF P. DOINGS TONIGHT

The entertainment committee of the local lodge Knights of Pythias promises those who attend the lodge meeting tonight an entertainment. Just what this will be is problematical as the committee never makes advance announcements of its program. Past experience, however, is that when this committee says there's going to be something doing at a certain meeting, it's so. All members as well as visitors should be on hand to indulge in the surprise that the committee has prepared for them.

SEWER BONDS VALIDATED

The case of the State of Florida vs. the City of Ocala, for the validation of the sewer bonds recently voted upon was heard by Judge W. S. Bullock in chambers this forenoon. After hearing the arguments an order was issued validating these bonds for the amount called for in the order for election.

BASEBALL AT ST. LEO

St. Leo played San Antonio and won for the second time this season. In the first inning neither side scored, but in St. Leo's half of the second, they landed on the ball and scored seven runs. St. Leo also scored a run in the fourth, fifth and seventh. San Antonio's first score was in the seventh; they scored two runs in the eighth and two in the ninth, making the score ten to five in St. Leo's favor.

RUSSIA'S STEADY ADVANCE

GERMAN INVASION OF POLAND COMPLETELY SHATTERED

MANY TOWNS TAKEN

Grand Duke Nicholas Has Driven a Wedge in the German Center and is Advancing Toward East Prussia.

Petrograd, March 1.—The German invasion of Poland north of the Vistula river seems to have been completely shattered. The Russians are on the offensive along the entire front from Niemen to the Vistula, dealing tremendous blows to the forces under General Von Hindenburg.

NUMEROUS SUCCESSES

Official reports received today accord Russian successes in all sections. In some places, the Germans have been driven back eleven miles. In the Przasnysz region the troops of Grand Duke Nicholas have driven a wedge into the German center and are advancing toward the East Prussian frontier. The Russians have captured village after village, taking from 500 to 800 prisoners in each.

MANY PRISONERS

As a result of the fighting for the last five days more than 18,000 prisoners have fallen into the hands of the Russians. The Germans have also lost many guns.

WILL ESTABLISH HAY MARKET

Messrs. D. W. Tompkins and George Rentz are working out plans for establishing a home market for Marion county grown hay. They propose to contract with the farmers for all the hay they can produce at a fair price. This will then be graded, baled and stored. They will use beggarweed, peavine, peanutvine and crab grass, all of which make splendid hay and when properly cured is relished more by stock than the imported feed of which thousands of dollars worth are brought into the county each year. This movement should mean the saving of thousands of tons of hay in Marion county, which, under the present lack of systematic marketing, goes to waste annually. Farmers should consult with these gentlemen at once and assist them in establishing a market for this valuable product, thereby helping themselves while keeping at home a portion of the vast sums sent to the west for feedstuffs.

OLD BUFFALO BILL IS MUCH ALIVE

Seventy Years Easily Carried by Veteran Scout and Showman

Denver, Colo., Feb. 28.—Colonel W. F. Cody ("Buffalo Bill"), who has been spending the winter in Denver, entered upon his seventieth year Friday, having been born in Scott county, Iowa, February 26, 1846. From every quarter of the country came messages of congratulation to remind the veteran scout and showman of his birthday anniversary. The years have dealt kindly with Colonel Cody. To all appearance he is still the same robust, strikingly handsome cavalier, whom men and women now of middle age flock to as children to look on in awed admiration as the famous scout chased by Indians about the exhibition arena and shot glass balls as he rode at full gallop on his magnificent white horse.

BELCHER AND THE BURGLAR

About 10 o'clock last night Mr. R. C. Belcher took several shots at a burglar who was trying to enter a rear window of the Georgia Williams residence, where he has rooms. The man made considerable noise and Messrs. Belcher and Williams thought they wouldn't be heard when they approached from the inside. His burglarship, however, heard them about as soon as they did him, and proceeded to put distance between himself and his would-be captors. Mr. Belcher "says" he didn't intend to hurt the poor fellow, as he is satisfied that he only wanted something to appease his hunger.

Mr. Redding is building the new house across the road or east of where his former one stood, which was burned several years ago. The new house will have nine rooms and two halls and will be most admirably situated on an elevation, 300 feet back from the road and quite a good many above it. Together with his farming and cattle raising, Mr. Redding is one of the most substantial citizens of the county, and is educating his children in the Ocala high school.

FRENCH EFFORTS TERRIFIC

TO FORCE THE RETIREMENT OF THE KAISER'S TROOPS

BETWEEN OISE AND AISNE

Germans in an Angle and Continue to Menace the French Capital, if not Forced to Retire.

Paris, March 1.—Terrific efforts are being made by the French to break through the German lines in the Champagne district, in order to force the retirement of the Kaiser's forces between the Oise and Aisne rivers. In the past five days, at least thirty attacks have been made by the French against the German lines between Souaine and Servon, north of Perthes. The German armies are lying in an angle formed by the junction of the Aisne and Oise rivers and continue to be a menace to Paris until forced to retire.

D. H. Dodge, Jr., received his appointment at Jacksonville today as deputy United States clerk and United States commissioner, to succeed Julius Otto, deceased, at Key West. Mr. Dodge, who is a brother of E. D. Dodge, clerk of the United States court, will probably go to Key West this week, relieving Commissioner H. L. Crane of this city, who is temporarily in charge there. Judge Crane will return to Tampa inside of a week or two in all likelihood.—Tribune.

Little Lucy Geise, daughter of Mr. and Mrs. James E. Johnson, was christened at the home of her parents on Oklawaha avenue Friday evening, Rev. W. H. Dodge, of Jacksonville, officiating. A number of the neighbors were present.

Two young boys were killed in Jacksonville yesterday, at different places, by the careless handling of firearms. One of them killed his playmate with a "didn't know it was loaded" gun and the other killed himself accidentally.
